Montclair, NJ

Friday, October 19, 2012

The fifth Passaic River Symposium will be a day-long event featuring the Lower Passaic River Restoration Project. The symposium will include invited keynote speakers and plenary sessions/presentations on all aspects of environmental management challenges relevant to the Passaic River Basin. This conference year will focus on sediment remediation as part of the Lower Passaic Interim Remedial Measure, the release of the Focused Feasibility Study, ecosystem restoration and environmental advocacy and public outreach efforts. Projects in the upper river and tributary watersheds will also play a prominent role in this conference. Call for abstracts and registration information will soon be posted on the symposium website at [www.csam.montclair.edu/pri/conferences](http://www.csam.montclair.edu/pri/conferences). We invite government agencies, corporate and consulting firms, non-profit organizations and academic organizations to become a symposium sponsor and/or exhibit at the conference. Please direct any inquiries or questions to the symposium chair, Dr. Meiyin Wu, at [pri@mail.montclair.edu](mailto:pri@mail.montclair.edu) or 973-655-5423
